If incompatibility is determined, the Council for Electronic Media shall put an end to the measures referred to in Item 2 of Paragraph (2) as a matter of urgency.

(4) The application of Paragraph (1) may be suspended in respect of an audiovisual media service provided by a media service provider under the jurisdiction of another Member State of the European Union where the said service manifestly, seriously and gravely infringes Item 1 of Article 8 (2) herein or prejudices or presents a serious and grave risk of prejudice to public security, including the safeguarding of national security and defence, subject to the following conditions:

3. the right of defence of the media service provider concerned has been respected and, in particular, that provider has been given the opportunity to express its views on the alleged infringements;

(5) The European Commission shall take a decision on the compatibility of the measures referred to in Item 2 of Paragraph (4) with European Union law within three months of the receipt of the notification referred to in Item 2 of Paragraph (4), the decision of the European Commission being taken according to the procedure provided for in Directive 2010/13/EU, as amended by Directive (EU) 2018/1808. If incompatibility is determined, the Council for Electronic Media shall put an end to the measures referred to in Item 2 of Paragraph (4) as a matter of urgency.

(6) Paragraphs (2) and (4) shall apply without prejudice to the existence of grounds for holding the media service provider concerned administratively, criminally or otherwise responsible where such responsibility is provided for the infringements concerned in the Member State under whose jurisdiction the said media service provider falls.

(7) The Council for Electronic Media may, in urgent cases but no later than one month after the alleged infringement, take a decision on non-application of the conditions provided for in Paragraph (4). The Council for Electronic Media shall notify the measures taken in the shortest possible time to the European Commission and to the Member State under whose jurisdiction the media service provider falls, indicating the reasons for which the Council considers that there is urgency.

(8) The European Commission shall examine the compatibility of the notified measures with European Union law in the shortest possible time. If incompatibility is determined, the Council for Electronic Media shall put an end to the measures as a matter of urgency.

(9) If the European Commission lacks information necessary to take a decision pursuant to Paragraphs (2) and (4) and within one month of the receipt of the notification requests the information necessary to reach that decision, the Council for Electronic Media shall provide the relevant information. The time limit within which the European Commission is to take the decision shall be suspended until such necessary information has been provided but, in any case, the suspension of the time limit shall not last longer than one month.

(10) The exchange experiences and best practices regarding the procedure under this Article shall be encouraged in the framework of the Contact Committee established pursuant to Article 29 of Directive 2010/13/EU and the European Regulators Group for Audiovisual Media Services (ERGA), hereinafter referred to as “ERGA”.

Article 5b. (New, SG No. 109/2020, effective 22.12.2020) (1) If the Republic of Bulgaria exercises the freedom thereof to adopt more detailed or stricter rules of general public interest and if the Council for Electronic Media assesses that a media service provider under the jurisdiction of another Member State of the European Union provides an audiovisual media service which is wholly or mostly directed towards the territory of the Republic of Bulgaria, the Council may request the Member State having jurisdiction to address any problems identified in relation to this Article, whereupon the States shall cooperate sincerely and swiftly with a view to achieving a mutually satisfactory solution.

(2) Upon receiving a substantiated request from another Member State which has exercised the freedom thereof to adopt more detailed or stricter rules of general public interest in respect of a provider under Bulgarian jurisdiction providing an audiovisual media service which is wholly or mostly directed towards the territory of that other Member State, the Council for Electronic Media shall require the media service provide under Bulgarian jurisdiction to comply with the rules of general public interest in question.

(3) In the cases referred to in Paragraphs (1) and (2), the Member State having jurisdiction shall regularly inform the requesting Member State of the steps taken to address the problems identified. Within two months of the receipt of the request, the Member State having jurisdiction shall inform the requesting Member State and the European Commission of the results obtained and explain the reasons where a solution could not be found. Either Member State may invite the Contact Committee established pursuant to Article 29 of Directive 2010/13/EU to examine the case at any time.

(4) The Council for Electronic Media may adopt appropriate measures against the media service provider from another Member State in the cases provided for in Paragraph (1) where:

1. the Council assesses that the results achieved through the application of the measures under Paragraph (1) are not satisfactory, and

2. the Council has adduced evidence showing that the media service provider in question has established itself in the Member State having jurisdiction in order to circumvent the stricter rules, in the fields coordinated by Directive 2010/13/EU, as amended by Directive (EU) 2018/1808, which would be applicable to it if the said provider were under Bulgarian jurisdiction.

(5) The Council for Electronic Media must possess evidence which allows for such circumvention to be reasonably established, without the need to prove the media service provider’s intention to circumvent those stricter rules, referring, in particular, inter alia, to the origin of the advertising revenues or distribution revenues, the main language of the service or the existence of programme services or advertisements targeted specifically at the Bulgarian public. The measures taken must be objectively necessary, applied in a non-discriminatory manner and proportionate to the objectives which they pursue.

(6) Measures under Paragraph (5) may be taken only where the following conditions are met:

1. the Council for Electronic Media has notified the European Commission and the Member State in which the media service provider is established of the Council’s intention to take such measures while substantiating the grounds on which it bases its assessment;

2. the right of defence of the media service provider concerned has been respected and, in particular, that provider has been given the opportunity to express a view on the alleged infringements and the intended measures;

3. the Commission has decided, complying with the procedure provided for in Directive 2010/13/EU, as amended by Directive (EU) 2018/1808, that the measures are compatible with Union law, in particular that assessments made by the Council for Electronic Media of the taking of the said measures are correctly founded.

(7) Within three months of the receipt of the notification referred to in Item 1 of Paragraph (6), the European Commission shall take the decision on whether the measures under Paragraph (5) are compatible with European Union law. If incompatibility is determined, the Council for Electronic Media shall refrain from taking the intended measures.

(8) If the European Commission lacks information necessary to take a decision pursuant to Item 3 of Paragraph (6) and within one month of the receipt of the notification requests the information necessary to reach that decision, the Council for Electronic Media shall provide the relevant information. The time limit within which the European Commission is to take the decision shall be suspended until such necessary information has been provided but, in any case, the suspension of the time limit shall not last longer than one month.

(9) Media service providers under the jurisdiction of other Member States of the European Union, which provide media services which are wholly or mostly directed towards the territory of Bulgaria, shall comply with the Bulgarian legislation applicable to audiovisual media services.

(10) The Electronic Commerce Act shall apply unless otherwise provided for in this Act. In case of conflict between the Electronic Commerce Act and this Act, this Act shall prevail, unless otherwise provided for in this Act.

Article 5c. (New, SG No. 109/2020, effective 22.12.2020) (1) Media service providers shall inform the Council for Electronic Media about any changes that may affect the determination of jurisdiction in accordance with Item 23 of § 1 of the Supplementary Provisions herein.

(2) In the public register referred to in Article 125j herein, the Council for Electronic Media shall maintain an up-to-date list of the media service providers under the jurisdiction of the Republic of Bulgaria and on which of the criteria set out in Item 23 of § 1 of the Supplementary Provisions herein their jurisdiction is based. The Council for Electronic Media shall inform the European Commission of the said list and of any updates thereto. A solution to any inconsistencies between the providers as recorded in the register and the lists of other States shall be found in cooperation with the European Commission and the national regulatory authorities concerned.

(3) The lists of the States shall be kept up-to-date by the European Commission in a centralised database that shall be made publicly available. The European Commission shall ensure that the national regulatory authorities have access to the said database.

(4) Where, in applying Article 5a or 5b herein, the Member States concerned do not agree on which Member State has jurisdiction, the Council for Electronic Media shall bring the matter to the attention of the European Commission without undue delay. The European Commission shall adopt a decision on which State has jurisdiction according to the procedure established by Article 2(5c) of Directive 2010/13/EU, as amended by Directive (EU) 2018/1808.

Article 6. (Supplemented, SG No. 79/2000, SG No. 93/2005, amended, SG No. 12/2010) (1) Media service providers shall be public-service and commercial.
